NOTE.—It will be seen that the Date of Reading of many of Mr. Lea's Papers preceded by several years, that on the Title-page of the Volume in which they were issued. The Transactions were published in Parts, but afford no internal evidence of the date of their issue, which has unfortunately resulted in much uncertainty in regard to the priority of many of the specific names. Mr. Lea has given in the Proceedings of the Academy of Natural Sciences, Vol. vii, p. 236, a list of dates of publication, which I have deemed it important to insert here.—(See References in Parenthesis.) I have also given the date on which some of the articles were issued in the Proceedings of the Philosophical Society. *Mr. Lea claims that the date of publication of a paper, is that on which it is read.*

IN PROCEEDINGS OF THE ACADEMY OF NATURAL SCIENCES, PHILADELPHIA.

*Including the principal remarks made by Mr. Lea, before the Society.*
